BIOLOGICAL PSYCHOLOGY

Volume contents

Volume 45 (1997)

Special issue: Mental Resources: Intensive and Selective Aspects

Preface 1

A.F. Sanders, A summary of resource theories from a behavioral perspective 5

A. Kok, Event-related-potential (ERP) reflections of mental resources: a review and synthesis 19

T.W. Robbins, Arousal systems and attentional processes 57

G.R.J. Hockey, Compensatory control in the regulation of human performance under stress and high workload: A cognitive-energetical framework 73

M.I. Posner, P. Tudela, Imaging resources 95

F. Rösler, M. Heil, B. Röder, Slow negative brain potentials as reflections of specific modular resources of cognition 109

R.H.J. van der Lubbe, J.C. Woestenburg, Modulation of early ERP components with peripheral precues: a trend analysis 143

T.A. Weber, A.F. Kramer, G. A. Miller, Selective processing of superimposed objects: an electrophysiological analysis of object-based attentional selection 159

D.J. Heslenfeld, J.L. Kenemans, A. Kok, P.C.M. Molenaar, Feature processing and attention in the human visual system: an overview 183

F.T.Y. Smulders, J.L. Kenemans, L.M. Jonkman, A. Kok, The effects of sleep loss on task performance and the electroencephalogram in young and elderly subjects . . 217

K.R. Ridderinkhof, M.W. van der Molen, Mental resources, processing speed, and inhibitory control: a developmental perspective 241

T.R. Bashore, M.W. van der Molen, K.R. Ridderinkhof, S.A. Wylie, Is the age-complexity effect mediated by reductions in a general processing resource? 263
